10. Any other suggestion for better development

38 responses

No

NA

Na

Good

Excellent

Include technical skill in the course

Staff should be more better in term of supporting and behaviour, some of faculty member are just there to annoy you in anyway as they can at there best, as there are some teachers who forgot being in ego and are bias and selfless, Teachers should mainly focus on teaching as possible and best they can rather than getting involved in unwanted activities , And specially Focus on Mr.Dhiraj Kalyankar's Behaviour.Hope so this suggestion be implemented rather than just seeing it and ignoring it as it was much genuine from a student,Thanks

please arrange technical workshops for every year students.practical exercise is most needed.

Teaching Is Very Good But Also Emphasize on Practicals...

Organize relevant Activities with respect to the branches, include more industry focused training and less theoretical approach. The Training and Placements department needs a massive overhaul/change in its functioning and its approach. The faculty needs to be more than just a teaching staff, they should provide the students with more opportunities, like just provide the students the information about all the hiring drives and how to crack them, or rather every departments should organise such events where they provide this information let's say from 2nd year onwards. The earlier they know the better it is for them to prepare for such drives/exams both studiously and mentally. All of the above are things that were missing when I/we were a part of the college. That's all, Cheers!!!
